

ISECON 2007: Information Systems Education Conference Organizational Meeting

Valerie Harvey
General Chair, ISECON 2007, Pittsburgh
Robert Morris University

ABSTRACT

Planning and carrying out ISECON is a large undertaking and depends on the support and involvement of a large number of volunteers. Each ISECON attempts to break new ground, and probably each forgets a few lessons previously learned. In the end, being on the ISECON team means you have a chance to develop new skills and new friendships. This meeting will overview the current state of plans for ISECON 2007 Pittsburgh and will solicit suggestions and volunteers.
